Exam 2 information
The exam will be in class, Tuesday, July 23.

The exam 2 covers chapters (last part of) $3.2 - 4.2$.

- **Approximating the maximum error in Lagrange Polynomial Interpolation**

- **Cubic Splines**

- **Numerical Differentiation**

- **Numerical Integration (non-composite methods)**

This time you are allowed to have a small note-card (5 by 3 inches)..

Please review the problems that I discussed in the class, quizzes, and homework problems numbers 15–20.
